

30 May 2018 - Update

Ministry of Health List Equipment Update

As a result of recent procurement activity and feedback from suppliers and assessors, Enable New Zealand has made a number of changes and minor updates to the Ministry of Health List Equipment. These changes are summarised below:

Band 1

Ambulatory Mobility

Product evaluations of walking frames has resulted in the following changes.

- Walking Frame - Lightweight:
 - Options consolidated with all variants now using the same frame.
- Walking Frame - Standard:
 - (Pacers). Options updated to remove some un-used variants.
 - 4 wheel version without brakes replaced by unit with handbrake.
 - Pram handle option added.
- Walking Frame – Gutter:
 - Options consolidated to single frame.
 - 4 wheel version without brakes replaced by unit with handbrake.
- Walking Frame – Rollator:
 - Advice of Supplier/Brand change across the rollator range. List will be updated further once new brand stock becomes available.
 - Narrow option amended to become a low seat option.
 - Heavy Duty option added to fill the gap between standard and bariatric rollators.

Bedroom

- Bed Lever image updated and DHB Service Accreditation updated.

Products Under \$50

- All Crutches:
 - Supplier/Brand change.

Band 2/3

Patient Lifters

- Standing Hoists:
 - Brand and user weight update.
