Band 1/2/3

Paediatric Manual Wheelchairs

Tender and product evaluations of paediatric manual wheelchairs has resulted in the following changes:

All Band 1/2/3 paediatric wheelchair categories have been updated with changes and additions to the listed equipment.

Rather than identifying specific chair sizes, the categories now identify generic base models (where appropriate) and details of what each base includes. Size and any additional requirements are identified through assessor submitted wheelchair script forms and supplier quotes.

This will simplify wheelchair selection for assessors.

Where possible, frame colour options are restricted to black/silver/red/blue
